Τμ. μηχανικών χωροταξίας, πολεοδομίας & περιφερειακής ανάπτυξης - Παν. Θεσσαλίας  
e-mail beriatos@otenet.gr

## THE FOUNDATION OF CEPHALONIA AND ITHACA

The foundation was established in 1991 by Presidential Decree which gave it the form of non profit legal entity of private sector. The administrative center of the foundation is in Argostoli, capital of the district of Cephalonia and Ithaca. Its main aims are: a) The protection of natural and man-made environment and the achievement of sustainable development in the islands of Cephalonia and Ithaca, as well as in the wider area of the Ionian Sea. b) The protection, conservation and wise management of the cultural heritage of the islands by organizing, promoting, supporting and encouraging scientific activities and initiatives. The basic means for achieving the above objectives are publications of historical, scientific or artistic character and the organization of quality events (conferences, symposia, seminars etc.) in order to strengthen scientific and cultural activity of the region. (Since 2000 the foundation has organized 14 scientific symposia with topics related to the above mentioned objectives).

## INTERNATIONAL SCIENTIFIC SOCIETY FOR DRY STONE INTERDISCIPLINARY STUDY

The Society brings together scientists, amateurs and institutions who work for the survey, the protection and the conservation of constructions in dry stone. The first international congress on the topic took place at Bari (Italy) in 1987. These meetings, casual at first, became gradually the expression of a common will that was materialized by the official creation of the S.P.S. in 1997. The Society focuses on the perpetuation of these congresses and on following evolutions of researches, rehabilitations and innovations concerning dry stone walling. It analyzes the different stakes and gives an opinion on the relevance of methods used and of objectives pursued by the various actors. Between two congresses, it maintains the link among the various partners and ensures the continuity of the meetings and exchanges. From the beginning till now, international Congresses are regularly held every 2 years.
