Dear Colleagues,

The Board of Directors of SADAS-PEA and the UIA Greek Section express their sadness and solidarity to all those affected by the deadly earthquake of February 6 that hit Turkey and Syria.

An unbelievable tragedy with thousands of victims and the devastating effects on buildings and infrastructure are shocking and touch the consciences and the feelings of all of us.

The unpredictability of catastrophes of this kind, must lead us more and more to work on prevention, developing and applying the most advanced techniques and regulations, as the main tool for protecting human life.

Facing this disaster and the dramatic situation of the citizens, any kind of support and help should be given generously and from our hearts without second thought.

Sincerely,
